## User Guide for Paged Curator 2.0

### Installing & Activating Paged Curator 2.0

- Via Wordpress dashboard
- Via FTP upload

#### Installation via Wordpress Dashboard

First step, login into your Wordpress admin dashboard; go to “Plugins” and select “Add New”.

The screenshot shows the WordPress admin dashboard's Plugins page. On the left sidebar, the 'Plugins' menu item is highlighted with a dark grey background and a white '1' badge. Below it, the 'Add New' link is also highlighted with a red rectangular box. In the main content area, the 'Plugins' title is followed by an 'Add New' button, which is also highlighted with a red rectangular box. Below the title, there are statistics: 'All (2) | Inactive (2) | Update Available (1)'. A 'Bulk Actions' dropdown menu is set to 'All' and an 'Apply' button is visible. A table of installed plugins is shown, with the first row for 'Akismet' having a yellow background and a message: 'There is a new version of Akismet available'. The table has columns for 'Plugin' and 'Description'. The 'Akismet' row shows 'Used by n... sleep. To... Version 2...'. The 'Hello Dolly' row shows 'This is no... you will ra... Version 1...'. Each row has a checkbox and links for 'Activate', 'Edit', and 'Delete'.

When the “Add New” page opens, select “Upload” then “Browse” to select the zipped Paged Curator 2.0 plugin file then click on the “Install Now” button to install the plugin.

## Install Plugins

Search **Upload** | Featured | Popular | Newest

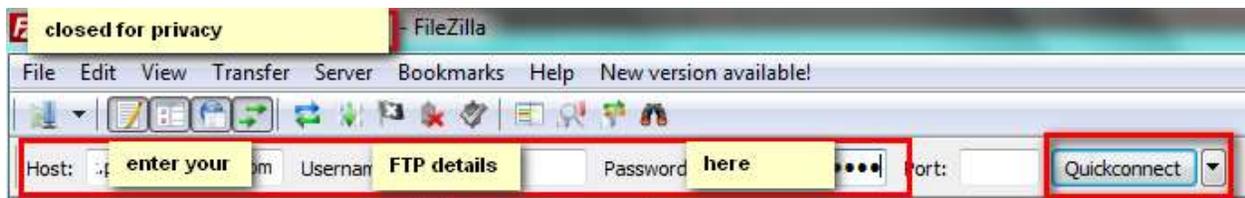

Install a plugin in .zip format

*If you have a plugin in a .zip format, you may install it by uploading it here.*

Installation via FTP upload

For this option, I like using software called FileZilla, [Download the FTP software here](#).

Follow the image below to enter your FTP details then click on the “Quick-connect” button to login.

Once you’re logged in, what you need to do next is very simple...

Go to the “Remote Site” tab and type in this URL:

“/public\_html/yoursitefolder.com/wp-content/plugins”

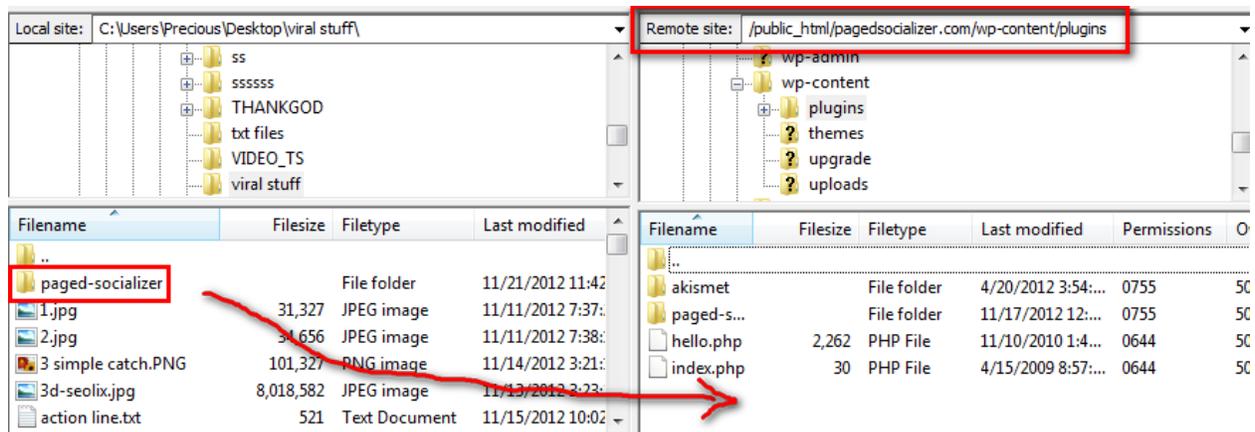

“Yoursitefolder.com” is the folder of the website you want to install the plugin on.

After typing the URL, hit the “Enter” button on your keyboard and that will lead you straight to “plugin folder of your website”

And you can easily upload the plugin...

This time, you will not be uploading zipped file of Paged Curator 2.0, you need to upload the folder instead, that means you have to extract the folder from the zipped file. I do this with [WinRAR](#) (my favorite – complex to use but very awesome) or [Winzip](#) software (another great option for me too and freaking easy to).

All you have to do is “pull n’ drag” Paged Curator 2.0 folder from your computer into the plugin section of your Remote site and allow it to upload.

## Activation

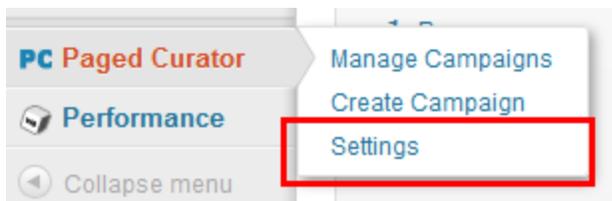

Just go to the “Plugins” section in your Wordpress dashboard and click the “Activate” link

## Using Paged Curator 2.0

The good thing is that with Paged Curator 2.0, there are no hectic configurations that are going to give you nightmares, it's just like a simple plug n' play machine...

First step is to configure the initial settings and you only do this once...

The settings page is going to look like this...

The image shows a settings page with three main sections for social media integration:

- Twitter:** Shows 'Authorized User ID' (91243716) and 'Authorized User Name' (PreciousNgwu). There is an 'Authorize Application' button and links for 'Sign Up' and 'Test Login'.
- LinkedIn:** Shows 'Authorized User ID' (JpRv3E4Hp) and 'Authorized User Name' (Precious Ngwu). There is an 'Authorize Application' button and links for 'Sign Up' and 'Test Login'.
- Friend Feed:** Shows 'Username' (preciousnest) and 'Remote Key' (a2t227cequi). There is a 'Save' button and links for 'Sign Up' and 'Test Login'.

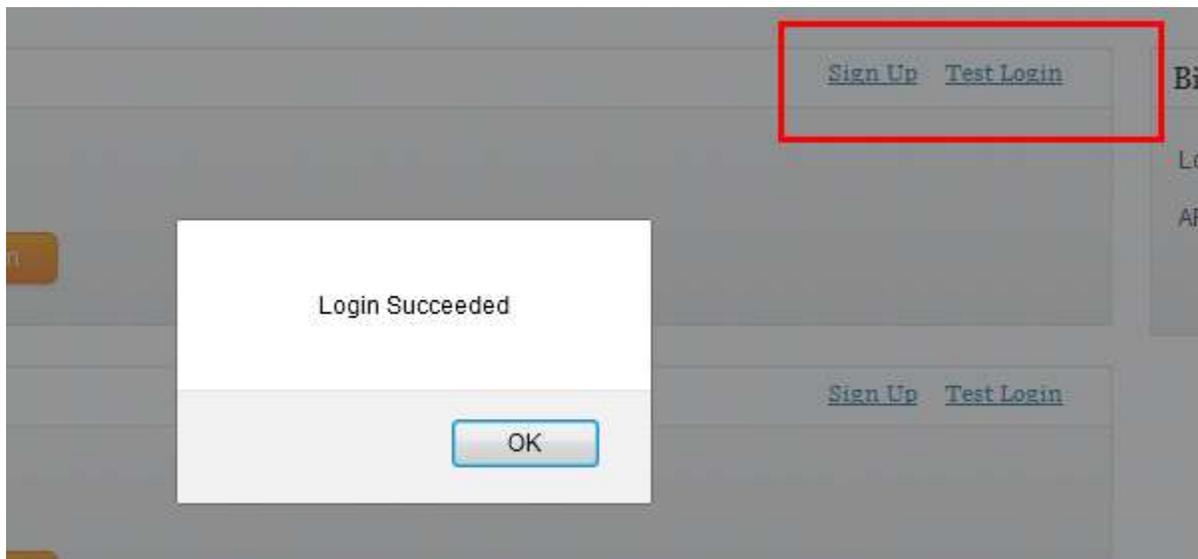

On the right side, there is a 'Bitly.com' section with 'Login' (preciousngwu) and 'API key' (R\_67039490a00388h) fields, and a 'Save' button. Links for 'Sign Up' and 'Test Login' are also present.

All you need to do is simple...

Enter your username and password then Save.

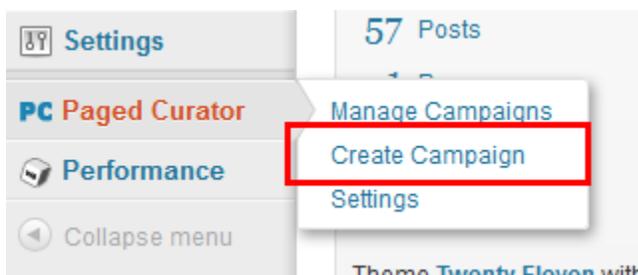

If you do not have an account on the site already then click on the “Sign Up” link to create an account...

After configuring your account, Test Login to make sure it's success...

Follow it and have all the accounts configured, it takes just few minutes...

After completing the initial setup, next step is to create a campaign... the sweet part!

On, the campaign creation page... just enter your keyword and go!

**Create Campaign**

**Enter your keyword**

Keyword:

Service: **YouTube** **select curation source**

Search Results: **2** **Select number of content to curate**

2  
4

**Text**

And you can do even more...

Once you're done with everything, just click the "Create Campaign" button and it will save...

It's really easy to setup, so easy it almost looks stupid but once you take action on this bad boy, you'll start smelling victory ;-)

With that, we've come to the end of this user manual, if you have any questions, forward it to [www.pagedsupport.com](http://www.pagedsupport.com) and we will take care of it.

Thanks for purchasing Paged Curator 2.0; I hope you enjoy it...

To more Traffic this 2013!

*Cheers*
