

ALURIAN

Paypal Download Manager

Installation Guide

REQUIREMENT

- 1) PHP
- 2) MySQL Database
- 3) IonCube (<http://www.ioncube.com/loaders.php>)

Many webhosts have Ioncube preinstalled, when in doubt, consult with your webhost.

If you need hosting that supports this script, go to:

<http://www.alurian.com/support/recommended-web-hosts/>

INSTALLATION INSTRUCTION

1. This typically takes 10-20 mins
Add a Database via your webhosting control panel.
All respectable webhosts provide a control panel where you can administer your account.
If you are unsure how to do it, consult with your webhost

2. Open up settingsmysql.php and fill in the following fields:

```
$mysqlbhost=".....";  
$mysqlbusername=".....";  
$mysqlbpassword=".....";  
$mysqlbdatabase=".....";
```

The should be filled with the info from the database that you have added in step 1

3. Upload the script to your web hosting account, typically done via FTP or the file manager in your web hosting control panel
4. Fire up your web browser and type in [http://\[URL where you have installed the script\]/install/](http://[URL where you have installed the script]/install/)
Fill in the fields and submit the form.

NOTE

The installation process is very straight-forward.

If you have experience installing PHP scripts, it should be a piece of cake.

But if the steps above sounds like Greek to you, please purchase a Professional Installation service from us.

We will not only install it for you but also configure it the right way.

This way when we hand it back to you, you are ready to sell right away and laughing all the way to the bank.

To purchase the installation service, login to <http://www.peergoal.com/members/>

You will see a link to purchase the installation service in there.
