Product Description

### Product Description

Colour isn't the only brilliant new iPod Nano feature. For those about to rock, we give you nine amazing colours. But that's only part of the story. Feel the curved, all-aluminum and glass design and you won't want to put iPod nano down. The accelerometer comes to iPod nano. Give it a shake to shuffle your music. Turn it sideways to view Cover Flow. And play games designed with your moves in mind.

#### Meet a musical Genius.

With just a few clicks, the new Genius feature finds the songs on your iPod nano that go great together and makes a Genius Playlist for you.

#### Rock and roll over.

Thanks to the built-in accelerometer, you can rotate iPod nano to flip through album art with Cover Flow. Watch movies and TV shows in widescreen. And view photos in either portrait or landscape.

#### Shake to shuffle.

Just give iPod nano a shake and it shuffles to a different song in your music library.

#### Curved ahead of the curve.

iPod nano now comes in nine vibrant colors and a new curved aluminum and glass design. The crisp, bright picture makes watching movies and TV shows amazing.

After selecting product variation combination related price of product is changed .

## 14. Kunki System Implementation

Kunaki is web services that allow you to sale your digital product on CD or DVD & you don't need to worry about making CD of content, go to post office, post it & get tracking code & give to your customer.

But with kunki you just need to add your content in kunaki & you get the product code from kunaki about your product. Now you can post order on kunkai, it will create the CD of content & post it on order details.

### How it works :-

You have to create a account on kunaki & your get your userid & password upload your product over there and design the CD & its cover by kunaki software

You get the product code for your product now you have to post the order on your kunaki account using the xml service provided by kunaki.

### Admin panel Kunaki Setting

The screenshot shows the 'Admin panel Kunaki Setting' form. At the top is a blue header bar with 'Manage Kunaki' on the left and a 'Back' link on the right. Below this is a section titled 'Kunaki Settings' with a question mark icon. The settings are organized into three rows. The first row is 'Activate Kunaki' with two radio buttons: 'Yes' (which is selected) and 'No'. The second row is 'Kunaki User ID' with a text input field containing the placeholder text 'your kunaki user id'. The third row is 'Kunaki Password' with a text input field containing the placeholder text 'password'. Below these is a row for 'Kunaki Mode' with a dropdown menu currently set to 'LIVE' and a question mark icon. At the bottom left of the form is a 'Save' button.

To Activate Kunaki system select "Yes" radio button

To Inactivate Kunaki system select "No" radio button.

To Activate Kunaki Enter your Kunaki User ID and Password you received from <http://www.kunaki.com> after registration.

Please note that if you select 'No' then all kunaki products in your cart will be disabled and will not be displayed in User Panel.

### Kunaki Mode

### 3.1.2.31 Kunaki System Implementation

#### New feature VIP Cart 4.0

Kunaki is a web service that allow you to sale your digital product on CD or DVD & you don't need to worry about making CD of content, go to post office, post it & get tracking code & give to your customer.

But with kunki you just need to add your content in kunaki & you get the product code from kunaki about your product. Now you can post order on kunkai, it will create the CD of content & post it on order details.

#### How it works :-

You have to create a account on kunaki & your get your userid & password upload your product over there and design the CD & its cover by kunaki software

You get the product code for your product now you have to post the order on your kunaki account using the xml service provided by kunaki.

Product Description

### Product Description

Colour isn't the only brilliant new iPod Nano feature. For those about to rock, we give you nine amazing colours. But that's only part of the story. Feel the curved, all-aluminum and glass design and you won't want to put iPod nano down. The accelerometer comes to iPod nano. Give it a shake to shuffle your music. Turn it sideways to view Cover Flow. And play games designed with your moves in mind.

#### Meet a musical Genius.

With just a few clicks, the new Genius feature finds the songs on your iPod nano that go great together and makes a Genius Playlist for you.

#### Rock and roll over.

Thanks to the built-in accelerometer, you can rotate iPod nano to flip through album art with Cover Flow. Watch movies and TV shows in widescreen. And view photos in either portrait or landscape.

#### Shake to shuffle.

Just give iPod nano a shake and it shuffles to a different song in your music library.

#### Curved ahead of the curve.

iPod nano now comes in nine vibrant colors and a new curved aluminum and glass design. The crisp, bright picture makes watching movies and TV shows amazing.

After selecting product variation combination related price of product is changed .
